Mon. through Fri.

Practice philosophy:

I am practicing in a clinical research setting. We are free standing and see all phases of medical and device research in a variety of specialties, phases 1 through 4. I am a subinvestigator, so I see patients to determine if they are a good fit for a specific trial and see them through the study visits to see how they are doing. If there are any adverse reactions, they are followed and appropriately treated until resolution. I routinely review ECG's and labs and perform pelvic

exams as well as various injections and skin biopsies as required by a given study. Many patients participate because they have lost medical insurance and with the routine care we provide as part of the study, I have helped identify such chronic conditions as hypertension and diabetes, so I feel we also serve a valuable function in assisting people with often getting the care and follow up that they need, too
