Uses electronic medical records:

## Medical School

School	Graduation
Georgia Health Sciences University	2002

## Post Graduate Training

"Last Year" does not necessarily mean that the licensee completed his/her training program. (In NC, a physician can be licensed without completing such a program.)

Institution	Specialty	State, Country	Training Program	Last Year
Ochsner Medical Center	Vascular Surgery	LA, US	Fellowship	2009
Ochsner Medical Center	General Surgery	LA, US	Residency	2007

## Current Board Certification and Year of Certification/Recertification

Physicians should not list non-ABMS or non-BOA specialty boards unless the board meets the criteria set forth in the NC Medical Board's Advertising and Publicity Position Statement.

Primary/Subspecialty	Year
Surgery (general)	2009
Vascular Surgery	2025

## Area of Practice

Area Of Practice	Primary
Vascular and Interventional Radiology	
Vascular Surgery	Yes

### Malpractice Information

This section indicates whether the licensee has been the subject of a malpractice judgment, award, payment or settlement. In accordance with NC law, the board posts this information for a period of seven years after the date of the judgment, award, payment or settlement. Settlements of less than \$75,000 or that occurred prior to May 1, 2008 are not included in this information.

The Board encourages the public to consider malpractice payment information in context and in combination with other information about the licensee's education, training and professional experience.

Please see **Interpreting Malpractice Payment Information** below.

**The Board reviewed this payment and determined that no public action was warranted.**

Incident Date	Payment Date	Area of Practice	City, State, Country	Response
02/24/2017	03/31/2020	Vascular Surgery	Raleigh, NC, US	Pt. filed a complaint alleging medical negligence in the care and treatment of left hip and leg pain resulting from left common iliac vein and left external iliac vein compression. Alleges improper workup and treatment resulting in erroneous diagnosis and improper technique of endovascular venous stenting, which caused migration of the common iliac vein stent to his right atrium. This case was voluntarily dismissed with

				prejudice by the plaintiff. The patient initially presented with complaints of left hip and leg pain during and after exercise. After evaluation including ultrasound and non invasive CT angiogram imaging, he was suspected to have left common iliac vein compression and venous outflow congestion as the etiology of his symptoms. He underwent a diagnostic venogram and intravascular ultrasound

### Interpreting Malpractice Payment Information

#### North Carolina Medical Board Public Action associated with a malpractice payment

An important factor to consider when interpreting malpractice payment information is whether the payment is associated with a public action of the NC Medical Board. The Board reviews the quality of care associated with every malpractice payment involving a North Carolina licensee. The Board takes public action when its investigation determines patient care was below accepted and prevailing standards.

#### When considering malpractice payment data, please keep in mind:

- The existence of a payment does not necessarily mean that malpractice has occurred. Nor is a payment necessarily evidence of incompetence, misconduct or an admission of wrongdoing on the part of the licensee.
- It often takes years for a malpractice claim to move through the legal and/or liability insurance systems. The incident that resulted in a payment may have taken place years before the payment was made.
- Malpractice payment histories vary by area of practice. Some licensees may have a higher-than-average incidence of malpractice payments because they specialize in treating patients who are at a high risk for problems.
- Malpractice insurance companies sometimes settle cases because it is less costly to make a monetary settlement than it is to defend a case in court. Many times, such cases are settled without a finding of fault or admission of negligence by the licensee.
